

## Flexible Tanks

### Applications

- Waste water treatment
- Chemical effluents storage
- Buffer storage during recycling
- Sewage sludge storage

Chemical Effluents

Sewage Sludge

Hydrocarbon

Water

## Industrial Storage

PRONAL high-strength coated fabric tanks are compatible with most acidic or basic solutions to keep them stored securely.

- Watertight solution
- Foldable & movable
- Odor free storage
- Chemical compatible

## Hydrocarbon Storage

From crude oil to Jet A1, PRONAL flexible bladders developed to store hydrocarbons in any condition. Made out of a highly resistant material coated with elastomer and hot vulcanized in an autoclave.

- Large compatibility with hydrocarbons
- Foldable & movable
- Resistant to extreme climatic conditions
