

## Universal 2-jaw & 3-jaw Puller Set with Quick Adjusting Jaws and Narrow Jaws

### Description

- 8 in 1 kit in the tried-and-tested KUKKO-L-Boxx- System.
- The set facilitates the assembly of eight different pulling device models through the combination of pulling jaws and extensions.
- Flexibility assured thanks to two-arm or three-arm design.
- If there is adequate free space around the part to be removed, we recommend using a 3-jaw puller.
- Standard pulling hooks in ECONOMYus lengths with quick adjusting capability quick adjust.
- Jaw extensions

### Advantage

- Practical package for universal use.
- The thin pulling hooks are suitable for narrow, difficult-to-access locations.
- A manual adjustment knurl allows rapid loosening and adjusting of the extractor jaws on the cross-beam without using a wrench.
- Variable reach thanks to optional jaw extensions.
- Can be installed on ECONOMYus pulling hooks.

Normal Jaw

Narrow Jaw

## Separating-Sets with Quick Clamping Pressure Spindle

### Description

- 4-parts, the sets contain one separator, one pulling device and a pair of extensions.
- With quick-clamping pressure spindle.
- The sharp blades enable flush parts to be removed where pulling jaws cannot be used.
- The wedge-shaped separator jaws are secured underneath the component to be removed.
- The large supporting surfaces protect the parts

### Advantage

- Easy to use, as the separator jaws are quickly and centrally tensioned with just one pressure spindle.
- Ultimate stability when removing, as the separator and pulling device are screwed firmly together.
- Practical package for universal use.
- Complete easy-to-manage package.
- Almost all components available as replacement parts, time-saving order process thanks to numbering system.
